

# Sears Super Video Arcade

Our most lifelike  
on-screen figures and  
landscapes — our highest  
skill games requiring  
the most strategy

**Realistic figures and landscapes.** Super Video Arcade figures look like real people. They have heads plus arms and legs that move; they run, jump, dribble and pass. And the landscapes are in perspective and proportion to the players.

**Plenty of action.** Stay alert every second if you want to win. In our baseball game, for example, you control pitching, fielding, base running and batting and your 9-man team plays 9 full innings! There's always an important playing decision to make.

**Something for everyone.** Choose from 22 games. Every member of your family can enjoy Super Video Arcade.

**Always a challenge.** You never stop developing your skills. Play against a sophisticated computer or challenge another player to games of speed and strategy.

**Easy to connect.** Simply attach the switch box to your antenna terminals and plug in the wires. To go from regular TV programs to Super Video Arcade, just flip a switch. You can play comfortably back from the TV because the controllers have extra-long 7½-foot cords. And the controllers are removable for ease of service if they're accidentally damaged.

Includes Poker/Blackjack cartridge.

**Super Video Arcade console and cartridges are compatible with the Mattel Intellivision™ System for extra enjoyment.**

**FOR COLOR TV ONLY**
