WIZARD OF WOR AND COSMIC AVENGER DIGITAL ROMS AVAILABLE

Two new games are now available, Wizard of Wor and Cosmic avenger, both are only available for digital download at this time for use on your LTO Flash. Stay tuned for any announcement on physical copies soon. TrekMD and Dr. Ports have made the downloads available here: [OFFICIAL DOWNLOAD THREAD](#)

WIZARD OF WOR

Welcome to the mystical kingdom of Wor! You have been placed in command of an elite squadron of Warriors assigned the task of outwitting the sinister Wizard of Wor! As you descend into his diabolical dungeons, you will encounter deadly Worlings and maybe even the Wizard himself! Your only weapons are your trusty laser, your radar scanner, and your ability and cunning. You will need them all as you attempt to beat the Wizard and earn the title of Worlord! Prepare now, and then let the battle begin!

COSMIC AVENGER

The game puts you in control of a space fighter battling a planet full of aliens. Fly your fighter over domed cities, across open plains, and through underwater caverns, firing missiles and dropping bombs on enemy installations and targets. But beware! The aliens are not defenseless. UFOs, tanks, and submarines shoot at you, bombs fall from above, and missiles rise from below and track your every move. Advance through the alien terrain, dodging the relentless enemy assaults, and eventually you'll reach the secret station that you must destroy. Fire, dodge, and fire again! How long can you survive flying above the surface of this dangerous alien planet?

BLUE SKY RANGERS GAMES AVAILABLE

BSRSTEVE/Blue Sky Rangers have begun sales of special editions of the previously released "bootleg" games by IntellivisionRevolution. These specially branded versions will be available initially in limited numbers, but *may* increase depending on demand. Express your interest. These are great in case you missed the previous releases and want to round out your collection. They feature special 'Blue Sky Rangers' branded stickers on front and back of box, full color labels in the LTO cartridge, some limited blue cartridges manufactured by Keith Robinson, and special title splash screens. Purchase details [HERE](#). BSRSTEVE/Blue Sky Rangers have expressed interest in future titles as well, stay tuned!
